

UDENSI DANIEL UGUANA

Aspiring IT & Digital Projects Professional

No. 1 Umunnajingene Street, Republic Estate, Independence Layout Enugu, Nigeria | +234 816 674 6199 |
danieludensi@gmail.com

OBJECTIVE

Detail-oriented graduate with hands-on experience in digital record-keeping, database management, and the Microsoft Office Suite (Excel, Word, PowerPoint), seeking a Virtual Intern role in Information Technology & Software. Skilled at coordinating digital projects, troubleshooting technical equipment, and collaborating with remote and cross-functional teams. A fast learner who consistently delivers accurate, well-organized work under deadline pressure, with a strong eagerness to build on existing tech skills and contribute from day one.

KEY SKILLS

- **Technical & Digital Tools:** HTML, CSS, JavaScript, React; Microsoft Office Suite (Excel, Word, PowerPoint); digital database and records management; data entry; basic troubleshooting of technical/broadcast equipment.
- **Digital Project Support:** Coordinating tasks and documentation across departments; maintaining accurate, accessible digital records; supporting remote/virtual collaboration.
- **Communication:** Strong written and verbal communication; experience drafting official correspondence and reports, and presenting information clearly to varied audiences.
- **Organization & Time Management:** Managing multiple tasks and deadlines simultaneously while maintaining accuracy and attention to detail.
- **Teamwork & Adaptability:** Proven ability to work within multidisciplinary and virtual teams, adapting quickly to new tools, systems, and processes.
- **Problem-Solving:** Identifying and resolving operational and technical issues, from equipment malfunctions to workflow bottlenecks.

PROJECTS

Fashion E-Commerce Website | *Freelance / Independent Project*

sommy-wears.netlify.app

- Built a fashion e-commerce website from scratch using HTML, CSS, JavaScript, and React for a client's online store, delivering the completed project within a 5-week timeline.
- Developed core storefront features including product listings with search and filter, a shopping cart, and secure checkout with payment integration.
- Built an admin/inventory dashboard for the client to manage products and stock, and delivered the finished site ready for real customer use.

WORK EXPERIENCE

Student Records & Registration Officer (IT) | *University of Calabar 2021 – 2026*

- Captured and processed personal and academic details for a student population ranging from 400 to 10,000 per academic session, accurately registering them into the university's IT database for course registration and school fees payment.
- Investigated and resolved data mismatches and inconsistencies in student profiles, correcting records across the registration and fees payment system to keep information accurate and up to date.
- Provided front-line technical support to students experiencing issues with registration, fee payment, or profile data, guiding them through resolution.
- Maintained confidentiality and accuracy while handling a high volume of sensitive student records within a shared database system.

Secretary, Soil Science Department | *National Youth Service Corps (NYSC) — University of Calabar*
February 2023 – January 2024

- Maintained departmental databases and digital records, ensuring student and staff information stayed accurate, organized, and easily accessible.
- Managed correspondence, scheduling, and document preparation using Microsoft Office, supporting smooth day-to-day department operations.
- Served as the primary point of contact for internal and external communications, resolving inquiries and directing them to the right resources.
- Coordinated meetings, workshops, and events end-to-end, from logistics and materials preparation to minute-taking.
- Tracked budgets and procurement requests, keeping financial documentation organized and policy-compliant.

Industrial Training (I.T.) Lab Attendant | *University of Calabar Teaching Hospital June 2018 – December 2018*

- Performed and documented routine laboratory testing and diagnostic assays in line with standardized digital and paper-based protocols.
- Monitored and troubleshooted laboratory equipment, escalating and resolving technical issues to keep operations running smoothly.
- Maintained detailed digital records for audits, research, and accreditation, and helped develop standard operating procedures.
- Trained and supported new staff and interns on equipment use, safety protocols, and best practices.
